

CONFIDENTIAL**NATIONAL PHOTOGRAPHIC INTERPRETATION CENTER**NPIC/D-20-63
4 March 1963**MEMORANDUM FOR: Director, Defense Intelligence Agency****SUBJECT: Letter of Appreciation**

1. In late December and again in February it was necessary for NPIC on a crash basis to pull together certain materials to support a briefing team on a key mission [redacted] 50X1
Some of the materials could be readily generated in NPIC. Others were related to detailed road data, road information summaries and related data of a type normally not prepared at NPIC.

2. For the latter materials, contacts were made at Army Map Service with the Army Area Intelligence Agency (AAIA), an agency recently transferred to DIA control. Representatives of AAIA were extremely cooperative in making available such materials as they had readily at hand and in addition went to considerable effort to organize and up-date their material so as to make very useful and impressive displays. It is believed that no other organization in the Washington area had the capability to respond so quickly and competently for this type of information.

3. It has not been possible to identify all of the personnel at AAIA who contributed to this project, but a partial list is as follows: [redacted] 50X1
[redacted] 50X1
[redacted] 50X1

Their cooperation and rapid response are much appreciated.

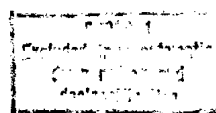

[redacted] 50X1
ARTHUR C. LUNDAHL
